6. The fact that a company which is a resident of a Contracting State controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

Chapter III

Taxation of Income

Article 6 Income From Immovable Property

1. Income from immovable property may be taxed in the Contracting State in which such property is situated.

2. The term "immovable property" shall be defined in accordance with the law of the Contracting State in which the property in question is situated. to variable or fixed payments as consideration for the working of, or the right to work, mineral deposits, sources and other natural resources.

4. The provisions of paragraphs 1 and 3 shall also apply to the income from immovable property of an enterprise and to income from immovable property used for the performance of professional services.

Article 7 Business Profits

1. The profits of an enterprise of a Contracting State shall be taxable only in that State unless the enterprise carries on business in the other Contracting State through a permanent establishment situated therein. If the enterprise carries on business as aforesaid, the profits of the enterprise may be taxed in the other State but only so much of them as is attributable to that permanent establishment.

2. Where an enterprise of a Contracting State carries on business in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the profits which it might be expected to make if it were a distinct and separate enterprise engaged in the same or similar activities under the same or similar conditions and acting wholly independently.

3. In the determination of the profits of a permanent establishment, there shall be allowed as deductions expenses which are incurred for the purposes of the permanent establishment including executive and general administrative expenses so incurred, whether in the State in which the permanent establishment is situated or elsewhere. However, expenses which would not be deductible if the permanent establishment were an enterprise of the said State shall be excluded.

4. In so far as it has been customary in a Contracting State to determine the profits to be attributed to a permanent establishment on the basis of an apportionment of the total profits of the enterprise to its various parts, nothing in paragraph 2 shall preclude that Contracting State from determining the profits to be taxed by such an apportionment as may be customary; the method of apportionment adopted shall, however, be such that the result shall be in accordance with the principles laid down in this article.

5. No profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.

6. For the purposes of the preceding paragraphs, the profits to be attributed to the permanent establishment shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.

7. The provisions of this article shall also apply to profits derived by a sleeping partner from his participation in a sleeping partnership (stille Gesellschaft) under Austrian law.

8. Where profits include items of income which are dealt with separately in other articles of this Convention, then the provisions of those articles shall not be affected by the provisions of this article.

Article 8 Shipping and Air Transport

1. Notwithstanding the provisions of article 7, paragraphs 1 to 6, profits from the operation of ships or aircraft in international traffic may be taxed in the Contracting State in which the place of effective management of the enterprise is situated.

2. If the place of effective management of a shipping enterprise is aboard a ship, then it shall be deemed to be situated in the Contracting State in which the home harbour of the ship is situated, or, if there is no such home harbour, in the Contracting State of which the operator of the ship is a resident.

Article 9 Associated Enterprises

Where

(a) An enterprise of a Contracting State participates directly or indirectly in the management, control or capital of an enterprise of the other Contracting State, or

(b) The same persons participate directly or indirectly in the management, control or capital of an enterprise of a Contracting State and an enterprise of the other Contracting State, and in either case conditions are made or imposed between the two enterprises in their commercial or financial relations which differ from those which would be made between independent enterprises, then any profits which would, but for those conditions, have accrued to one of the enterprises, but, by reason of those conditions, have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

Article 10 Dividends

1. Dividends paid by a company which is a resident of a Contracting State to a resident of the other Contracting State may be taxed in that other State.
2. However, such dividends may be taxed in the Contracting State of which the company paying the dividends is a resident, and according to the law of that State, but the tax so charged shall not exceed 15 per cent of the gross amount of the said dividends.
The competent authorities of the Contracting States shall by mutual agreement settle the mode of application of this limitation.
This paragraph shall not affect the taxation of the company in respect of the profits out of which the dividends are paid.
3. The term "dividends" as used in this article means income from shares, *jouissance* shares or *jouissance* rights, mining shares, founders' shares or other rights, not being debt-claims, participating in profits, as well as income from other corporate rights assimilated to income from shares by the taxation law of the State of which the company making the distribution is a resident. In the case of Portugal, the term also includes profits attributed under an arrangement for participation in profits (*conta em participacao*).
4. If the recipient of the dividends, being a resident of a Contracting State, has in the other Contracting State, of which the company paying the dividends is a resident, a permanent establishment with which the holding by virtue of which the dividends are paid is effectively connected, then, subject to the application of the provisions of article 7, paragraphs 1 to 7, the said dividends may also be taxed as such in that other State, but the tax so charged shall not exceed the rate provided for in paragraph 2 of this article.
5. Where a company which is a resident of a Contracting State derives profits or income from the other Contracting State, that other State may not impose any tax on the dividends paid by the company to persons who are not residents of that other State, or subject the company's undistributed profits to a tax on undistributed profits, even if the dividends paid on the undistributed profits consist wholly or partly of profits or income arising in such other State. The foregoing shall not apply if the recipient of the dividends has in the other Contracting State a permanent establishment with which the holding by virtue of which the dividends are paid is effectively connected.

Article 11 Interest

1. Interest arising in a Contracting State and paid to a resident of the other Contracting State may be taxed in that other State.
2. However, such interest may be taxed in the Contracting State in which it arises, and according to the law of that State, but the tax so charged shall not exceed 10 per cent of the gross amount of the interest. The competent authorities of the Contracting States shall by mutual agreement settle the mode of application of this limitation.
3. The term "interest" as used in this article means income from government securities, bonds or debentures, whether or not secured by mortgage and whether or not carrying a right to participate in profits, and debt-claims of every kind as well as all other income assimilated to income from money lent by the taxation law of the State in which the income arises. In the case of Portugal, the term also includes payments made to an enterprise as compensation for its going out of business or reducing its business activities.
4. If the recipient of the interest, being a resident of a Contracting State, has in the other Contracting State in which the interest arises a permanent establishment with which the debt-claim from which the interest arises is effectively connected, then, subject to the application of the provisions of article 7, paragraphs 1 to 7, the said interest may also be taxed as such in that other State, but the tax so charged shall not exceed the rate provided for in paragraph 2 of this article.
5. Interest shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the interest, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment in connexion with which the indebtedness on which the interest is paid was incurred, and such interest is borne by such permanent establishment, then such interest shall be deemed to arise in the Contracting State in which the permanent establishment is situated.
6. Where, owing to a special relationship between the payer and the recipient or between both of them and some other person, the amount of the interest paid, having regard to the debt-claim for which it is paid, exceeds the amount which would have been agreed upon by the payer and the recipient in the absence of such relationship, the provisions of this article shall apply only to the last-mentioned amount. In that case, the excess amount shall remain taxable according to the law of each Contracting State, due regard being had to the other provisions of this Convention.

Article 12 Royalties

1. Royalties arising in a Contracting State and paid to a resident of the other Contracting State may be taxed in that other State.
2. However, such royalties may be taxed in the Contracting State in which they arise, and according to the law of that State, but the tax so charged shall not exceed:
 - (a) 10 per cent of the gross amount of the royalties in the case of royalties paid by a company which is a resident of the said Contracting State to a resident of the other Contracting State who holds more than 50 per cent of the capital of the company paying the royalties;
 - (b) In all other cases, 5 per cent of the gross amount of the royalties.The competent authorities of the Contracting States shall by mutual agreement settle the mode of application of this limitation.
3. The term "royalties" as used in this article means payments of any kind received as a consideration for the use of, or the right to use, any copyright of literary, artistic or scientific work, including cinematograph films and films or tapes for radio or television broadcasting, any patent, trade mark, design or model, plan, secret formula or process, or for the use of, or the right to use, industrial, commercial or scientific equipment, or for information concerning industrial, commercial or scientific experience.
4. If the recipient of the royalties, being a resident of a Contracting State, has in the other Contracting State in which the royalties arise a permanent establishment with which the right or property giving rise to the royalties is effectively connected, then, subject to the application of the provisions of article 7, paragraphs 1 to 7, the said royalties may also be taxed as such in that other State, but the tax so charged shall not exceed the rates provided for in paragraph 2 of this article.
5. Royalties shall be deemed to arise in a Contracting State when the payer is that State itself, a political subdivision, a local authority or a resident of that State. Where, however, the person paying the royalties, whether he is a resident of a Contracting State or not, has in a Contracting State a permanent establishment in connexion with which the contract giving rise to the royalties was concluded, and such royalties are borne by such permanent establishment itself, then such royalties shall be deemed to arise in the Contracting State in which the permanent establishment is situated.
6. Where, owing to a special relationship between the payer and the recipient or between both of them and some other person, the amount of the royalties paid, having regard to the use, right or information for which they are paid, exceeds the amount which would have been agreed upon by the payer and the recipient in the absence of such relationship, the provisions of this article shall apply only to the last-mentioned amount. In that case, the excess amount shall remain taxable according to the law of each Contracting State, due regard being had to the other provisions of this Convention.

Article 13 Capital Gains

1. Gains from the alienation of immovable property, as defined in article 6, may be taxed in the Contracting State in which such property is situated.

However, gains from the alienation of movable property of the kind referred to in article 22, paragraph 3, may be taxed in the Contracting State in which such movable property is taxable according to the said article.
3. Gains from the alienation of any property other than those mentioned in paragraphs 1 and 2 shall be taxable only in the Contracting State of which the alienator is a resident.
4. The provisions of this article shall not be construed so as to limit the right of Portugal to levy tax on gains from the incorporation of reserves into the capital of companies whose head office or place of effective management is situated in Portugal. The said provisions shall likewise not be construed so as to prevent Portugal from levying tax on the issuance of shares where preference is given to the shareholders of such companies.

Article 14 Independent Personal Services

1. Income derived by a resident of a Contracting State in respect of professional services or other independent activities of a similar character shall be taxable only in that State unless he has a fixed base regularly available to him in the other Contracting State for the purpose of performing his activities. Chapter VI

Special Provisions

Article 24 Non-discrimination

4. Enterprises of a Contracting State, the capital of which is wholly or partly owned or controlled, directly or indirectly, by one or more residents of the other Contracting State, shall not be subjected in

Article 25 Mutual Agreement Procedure

1. Where a resident of a Contracting State considers that the actions of one or both of the Contracting States result or will result for him in taxation not in accordance with this Convention, he may, notwithstanding the remedies provided by the national laws of those States, present his case to the competent authority of the Contracting State of which he is a resident.

The objection must be submitted within two years from the date of notification of the tax to which it relates or, in the case of taxation in both States, from the date of notification of the second taxation or, in the case of taxation by deduction at the source, from the date of payment of the income taxed at the source, even where, in the last-mentioned case, the objection relates to the second taxation.

2. The competent authority shall endeavour, if the objection appears to it to be justified and if it is not itself able to arrive at an appropriate solution, to resolve the case by mutual agreement with the competent authority of the other Contracting State, with a view to the avoidance of taxation not in accordance with the Convention.

3. The competent authorities of the Contracting States shall endeavour to resolve by mutual agreement any difficulties or doubts arising as to the interpretation or application of the Convention. (b) To supply particulars which are not obtainable under the laws or in the normal course of the administration of that or of the other Contracting State;
